Conditions for Dual Immersion Placement

Parent Understanding

I understand that:

- Enrollment in the Dual Immersion Program is not guaranteed. (Please refer to the selection section of the web site under the Immersion tab.)
- The parent must provide transportation to and from school if the student lives outside of the school's boundaries.
- The first year of immersion is frustrating for both students and parents. Students struggle with the new language and parents worry about their child falling behind. Over time the student becomes comfortable and capable in all aspects of the program. Very few students have struggled academically simply because of their enrollment in dual immersion.
- Parental commitment to the program is necessary for it to have a profound impact on student learning. The research is clear that commitment to the program brings about great academic results.

Commitment

Please check one.

- I commit to keeping my student in the Dual Language Immersion Program from 1st grade to 12th grade.
- I would like to see how the first year goes and make a decision then.
- I am unable to make any commitment at this time, but am still interested.
